**Licensure Standards for Alcohol and Other Drug Abuse Treatment Programs
2009 Edition**

The Licensure Standards for Alcohol and Other Drug Abuse Treatment Programs serves as a Manual of State issued rules and regulations governing the licensure process. The Manual includes:

- (1) Procedures for Licensure
- (2) Licensure Types
- (3) Substance Abuse Treatment Standards
- (4) Application for Licensure

The Procedures for Licensure explains the licensure process for treatment programs, the Standards Review Team and other issues regarding licensure.

The Application for Licensure is to be completed by all programs seeking licensure as an alcohol and/or other drug abuse treatment program in Arkansas prior to the on-site initial review.

All Standards that are applicable to a program must be in compliance in order for a program to obtain a one year or a three year license. A program may obtain a six-month operational permit or become accorded a six month probationary license if the program is found by ADAP to be in substantial compliance with all applicable standards and capable of coming into full compliance with all applicable standards within six (6) months.

All Standards that are applicable to a program must be in compliance in order for a program to obtain a one year or a three year license. A non-licensed program that meets the minimum level of compliance may obtain a six-month operational permit. A six-month probationary license may be accorded to currently licensed programs that are not in compliance with applicable standards after a follow up licensure review.
